SMOOTH ALMOND MILK ICE CREAM IN SOFT SERVE WITH YOUR CHOICE OF TOPPINGS

The trend is clear: Consumers are eating fewer dairy products than in the past. In Germany, for example, 13 percent of people are reducing their consumption. Worldwide, the share of alternative products is growing by 12 percent. The reason: Consumers want foods that are better for themselves, for the environment and for the climate. We are supporting this development by expanding our know-how in vegan alternatives. In ice cream, natural vanilla flavors and a mouthfeel solution enhance the almond milk base of the dessert to create the full taste of dairy ice cream and toppings of fruits crunch' flakes and crunchies (honey, mango, bilberry, raspberry) adding a special sensorial experience.
