# Mrs. Chicken

CHICKEN HAM – CLEAN LABEL GUARANTEED

Especially where meat is concerned, more and more consumers are insisting on buying a product that is as healthy, pure, safe and trustful as possible. A tasty chicken ham, for example, should contain no synthetic additives – the principles of clean label and “free of” also apply to cold cuts, a product enjoyed worldwide, which is designed to have a long shelf life. To meet these standards, we use natural preservatives and flavors that enhance the flavor of the meat and are themselves made from chicken products.
